How Fast Labour Hire Reduced Worker Onboarding from 6 Hours to 15 Minutes with Canyou

Fast Labour Hire places and manages workers across construction, trades, warehousing, and logistics. With 16–50 staff and 500+ workers managed at any time, same-day job-readiness is the standard.

THE PROBLEM

A manual process that didn't scale

Every new worker submitted a full document set before placement: photo ID, TFN, licences, right to work, bank, super, contracts, police checks, resume. It all ran through email, spreadsheets, and paper forms.

Chasing workers ate staff time. Manual data entry meant handling info twice. Compliance gaps were hard to track. And the process did not scale.

Centralised compliance records

THE DECISION

Canyou met every priority, and the support sealed it.

Lewis evaluated options against four priorities: speed of onboarding, reducing admin workload, compliance confidence, and cost.

1 Speed of onboarding

2 Reducing admin workload

3 Compliance confidence

4 Cost

Canyou met all four.

“Compliance for our ISO accreditation plus Canyou had everything we needed to fit into our business, plus easy to adapt to our own processes and procedures. It was more cost effective as well and the online support was excellent compared to other companies.”

THE ROLLOUT

Live from day one.

Fast Labour Hire ran a pilot before committing to a full rollout. It was the right call. But adoption was never going to be the problem.

Pilot first

No disruption during a busy period.

Easy to implement

Straightforward setup, integrated with existing tools.

Team up to speed fast

User friendly from day one.

“It was very easy to get everyone up to speed as it was very user friendly and easy to implement from day one.”

THE RESULTS

Time won back, everywhere it mattered.

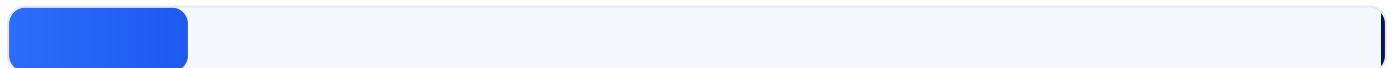

Onboarding per worker

6–10 hrs → **under 15 min**

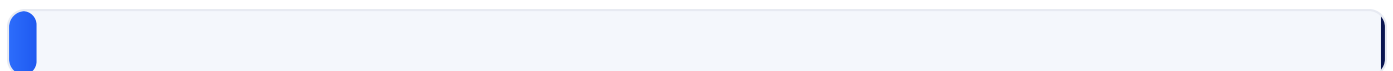

Admin per week

6–10 hrs → **31–60 min**

Follow-ups per worker

10+ → **near zero**

Onboarding: 6–10 hrs → **under 15 min**

Admin: 6–10 hrs/week → **31–60 min**

Follow-ups: 10+ → **near zero**

ISO-ready audit trail

“The team can send the link to our candidates and all information is completed prior to meeting time face to face. Saves so much time and very well suited to our business structure.”

BOTTOM LINE

Onboarding cut from hours to minutes. Compliance confidence won.

Fast Labour Hire came to Canyou with a manual onboarding process that was slow, hard to scale, and creating real compliance exposure with ISO accreditation on the line. Canyou gave the team a system that fit how they already worked. It was affordable, simple to roll out, and the support made the difference when comparing alternatives.
